Own Your Own Apartment
Earn a Landlord's 20 % Profit

¶ Don't build, buy or rent a home or apartment until you have carefully studied our

$1000 to $5000 Unit Plan

in one of our new co-operative apartment house building projects.

This is positively a "ground floor" proposition, with "commissions," "promotion," "profits" and "water" squeezed out.

¶ Every transaction, every expense, every book is spread out for your careful and thorough investigation and approval. For it all—brokerage, service, supervision, etc.—we charge a nominal flat 2½%. Everything bought and handled at actual cost.

Your investment earns 20% per year in rents saved or earned

¶ We furnish the site in the down-town "heart" of San Francisco or Oakland; we furnish plans and building specifications for an elegant $25,000 to $100,000 apartment house of a dozen to twenty apartments; we superintend construction; each investor is given a Unit Bond for the apartment he buys; he owns it for all time. Each apartment costs half what a small bungalow, in the cheaper outskirts, will cost; it is far more comfortable and luxurious; it is more readily rentable at higher rent; more readily saleable for larger profit; more accessible. Because down-town, its value increases far more rapidly. Your Unit Bond is more negotiable than a deed covering cheap property.

Use Your Logic—Think What It Means

¶ You, with a dozen to twenty small investors, jointly own an elegant apartment house and a piece of land, every day growing vastly mor valuable than outskirt, cheaper property. SINGLY, YOU CANNOT TOUCH A DEAL OF OUR SIZE. Big deals make biggest profits.

¶ See our architect's plans, apartment arrangements, specifications, etc. If you have apartment house ideas or building property, bring them to us. THIS IS NOT A SO-CALLED "GROUND FLOOR" PROPOSITION IN NAME ONLY. Investigation will convince you.
